- Whole Class Games
- SCOOT
- Math Centers

A VARIETY OF QUESTIONS

QUESTION TYPES:

- Sequence of Numbers – Find the Rule
- Which One is Next in the Sequence?
- A Table of Number Patterns
- Complete the Pattern

WORKS WELL FOR:

- Independent Work
- Small groups/partners
- Spiral Review

TEACHERS ARE SAYING THIS:

Great task cards. My students had a great time using them and putting together answers. It also was so helpful with all of the differentiated questions. (Sarah T.)

This is a great warm-up for math time. It not only reviewed math concepts, but it introduced my students to new concepts in a fun and entertaining way. We did the activities whole group and they used whiteboards to show the answer. (Miriam W.)

This was an awesome addition to my math groups. Thanks! (Lana M.)

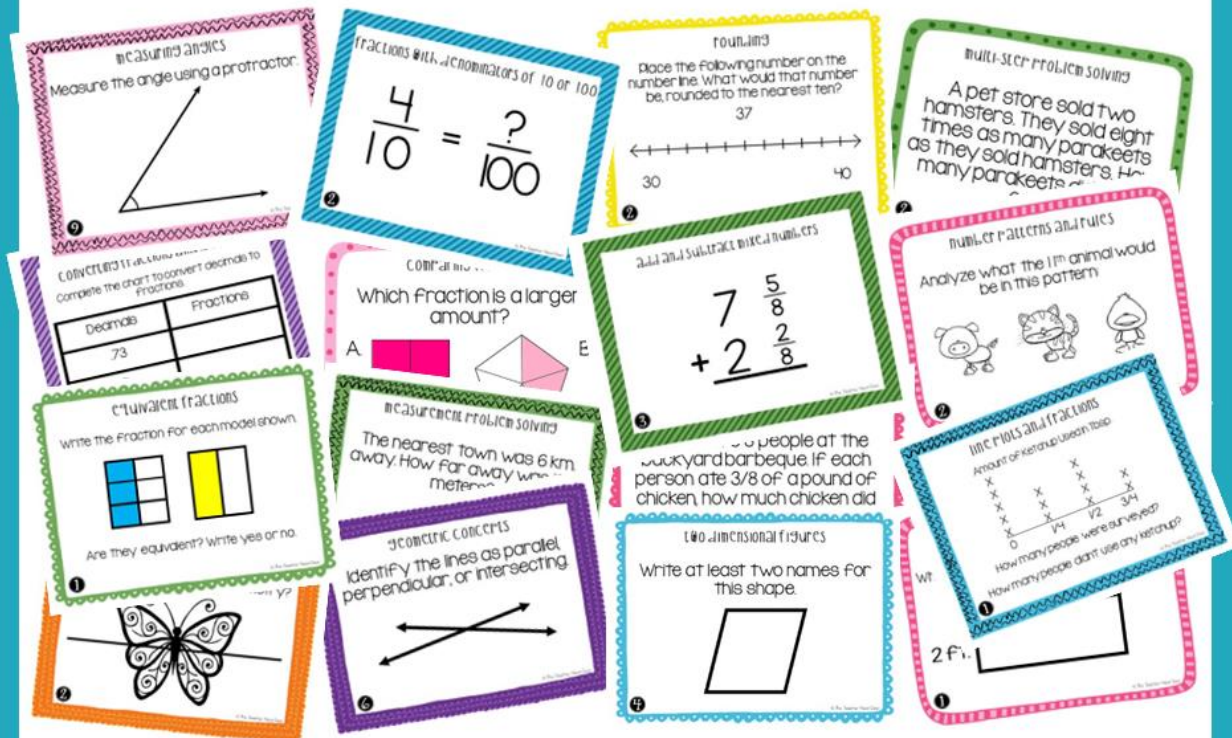

This really got my kiddos to think and they loved doing it! (Caitlin's Creative Classroom)
